

IMPACT REPORT 2018

www.sakinahoutreach.org

For almost a decade, Sakinah Medical Outreach has been providing and supporting the needy with free health care services and medical assistance, with the hope of giving everyone a chance to quality health care services. This has been underpinned by our ethos that good and quality health status of individuals is the most important driver for economic growth and impact in Nigeria. As the saying goes, 'health is wealth', when the residents of a nation are healthy, the nation is healthy and wealthy.

Here is an overview of what we achieved in 2018;

N7.2

million spent

665

Beneficiaries from
Medical Outreach

Beneficiaries from
Save-a-Soul Project

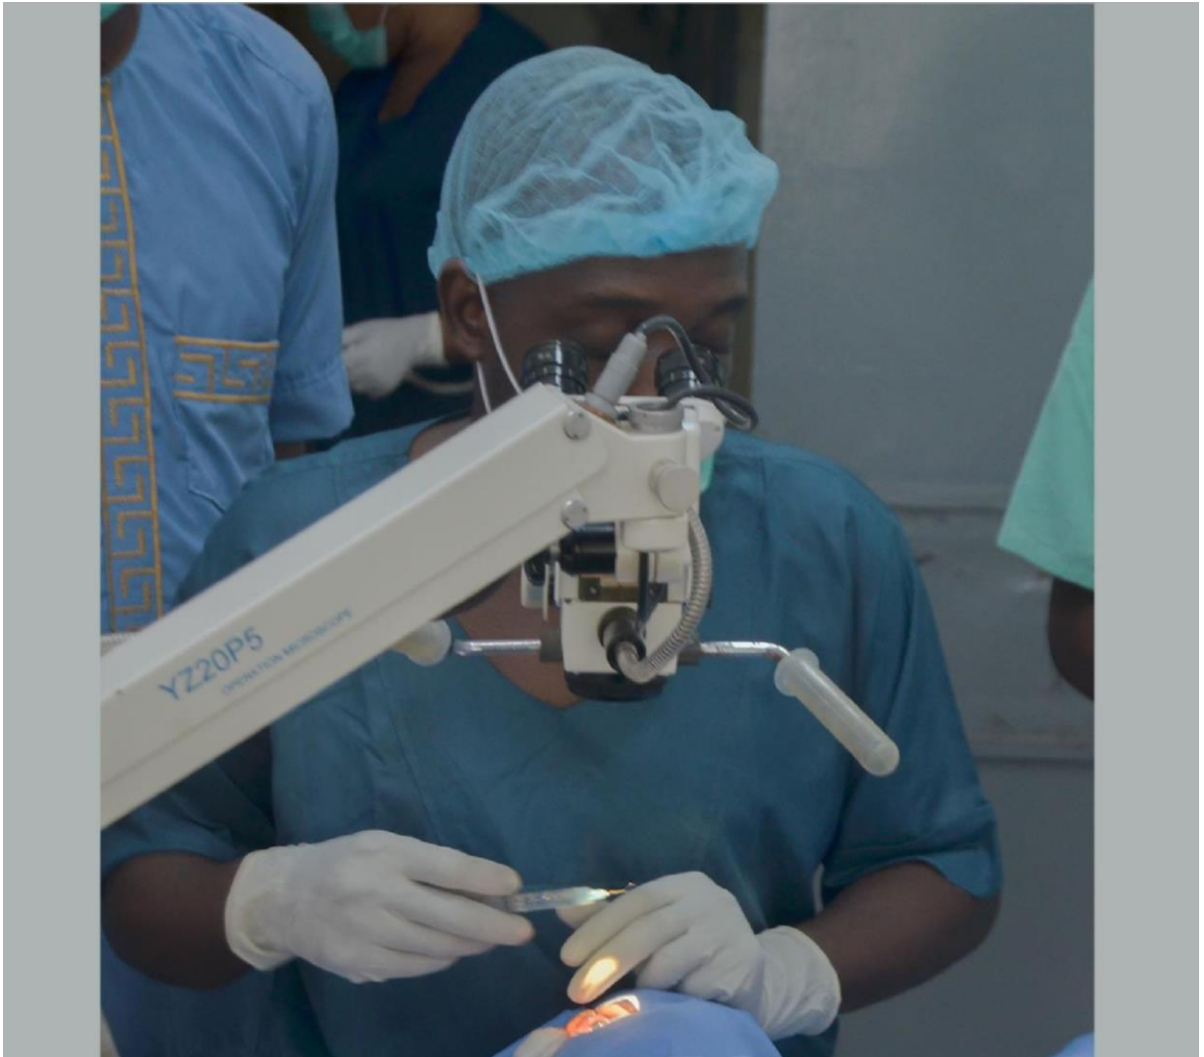

Our Medical Outreach

Last year, through the generous donations from our magnanimous donors, we had yet another encompassing medical outreach program, between the month of July - September (2018) at the Federal Medical Centre, Abeokuta, Nigeria. The medical outreach, themed 'THE GIFT OF SIGHT 3.0', focused on free eye screening exercise and cataract surgery. 665 individuals were screened; 468 individuals were gifted either free eye glasses or eye drops and 100 individuals benefitted from the free cataract surgery.

Our Save-a-Soul Project

Together we are saving lives, together we are giving hope and together we show love and spread peace through the Sakinah's 'save a soul' project. This year, the project received twenty four (24) applications from individuals with chronic sickness requesting for medical assistance. After verification and screening, 6 cases got medical intervention based on the available funds. There are still other applications waiting for our intervention.

Our Beneficiaries

QASEEM SALEEM

Age: 11 months old

Ailment: Leptomeningeal Cyst

Sakinah Involvement: Sponsored his successful treatment at the Lagos University Teaching Hospital, Idi- Araba, Lagos state, Nigeria.

Current Status: Recovered

HALIMA ADEYANJU

Age: 57 Years old

Ailment: Acute Renal failure complicating treatment for Gastric Outlet Obstruction & Chronic Ulcer.

Sakinah Involvement: Sponsored Dialysis at Babcock University Teaching Hospital, Oyo state, Nigeria

Current Status: Recovered

SHAKIRAT ALADE

Age: 12 Years old

Ailment: Chronic Kidney Disease

Sakinah Involvement: Sponsored Dialysis at University of Ilorin Teaching Hospital, Kwara state, Nigeria

Current Status: Unfortunately died from her chronic illness

NAIMA BASHIR

Age: 34 Years old

Ailment: Breast Cancer

Sakinah Involvement: Sponsored her successful surgery at Amrita Institute of medical Sciences, Kochi India

Current Status: Recovered

Total number of applications received: 24 (100%)

Resolved Cases 6 (25%)

Pending Cases: 18 (75%)

How You Can Help

Your donation makes a real difference in the lives of the people we serve. Whether you are an individual, a company, or a foundation, your gift helps us react more quickly to humanitarian and medical needs. However big or little may be a drop in the ocean, but it's all we need to perform better and be more accountable. So, take active part in this striving and let us make a difference together. Every little helps and Allah will pay it back, if you trust Allah, He will give you back more than you give Him in this cause.

Please consider making a monthly donation to our accounts;

Waqf, or ‘endowment’, is a long-standing Islamic tradition. It plays a very important role in Muslim societies and refers to the dedication of some valuable goods – land, a building, or even money such that it no longer belongs to anybody, and cannot be bought or sold. The profits which are then generated from this endowment are given away as charity.

An excellent way you can help the work of Sakinah Medical Outreach and make it sustainable into the future is by dedicating part of what Allah has blessed you with as an endowment (waqf). This will be a perpetual means of supporting patients whether you are alive or not.
